The background features a light gray grid with various financial data visualizations. At the top, there are several vertical bars of varying heights. Below these, a line graph with multiple peaks and valleys is visible. In the lower half, a candlestick chart is overlaid on a grid. Scattered throughout the background are several numerical values in a light gray font: '44.29' in the upper left, '20.417' in the center, '31.012' on the right, '06.381' at the bottom center, and '10' at the bottom right. The overall aesthetic is clean and professional, typical of a financial or investment document.

TRADE COMMISSION

Elysium Capital has secured best execution with our 3rd part independent broker MultiBank Group. With MultiBank all our trading bot clients get an ECN account.

ECN stands for Electronic Communication Network. In layman terms MultiBank uses it's bank and non-bank liquidity providers to find the best Bid (Buy) and Best Ask (Sell). They put the two prices together to create the tightest spread possible.

There is a small commission per trade that is paid to the broker to cover their costs. As per MultiBank's 100% transparency policy every commission will be displayed to you the trader.
